SONICACTS Luc Ferrari

COMPOSER

Luc Ferrari. Photo by Laszlo Ruzska.

Luc Ferrari (1929–2005) was a pioneering French composer associated with *musique concrète* and early electronic music.

He played a crucial role in the establishment of the Groupe de Recherches Musicales, working closely alongside the studio's founder, Pierre Schaeffer.

Ferrari's innovative compositions, such as *Presque Rien No. 1* (1970), integrated traditional instruments with electronic elements, capturing the beauty of everyday sound. His explorations into the dynamic relationship between noise and the environment have gone on to influence the evolution of contemporary music.

Please note that Luc Ferrari's work is exhibited at Sonic Acts Biennial 2024, not performed live.
