BRUNHILD FERRARI

“Like most of my fellow human beings, I was born, I grew up, I attended schools, I passed exams, I failed, I loved, I worked hard sometimes, I enjoyed life;

I continue. I worked with Pierre Schaeffer in the ORTF research department on the relationship between sound and image. Of German origin, I have had an activity as an interpreter and translator. Following Luc Ferrari's advice in matters of life, music, and composition, and working with him over the course of our 40 years together, I made my own *Hörspiele* and radio plays broadcast on France Culture, in the United States, and the main German radio stations. Since Luc left us in 2005, I have taken care of the preservation of his vast archives; founded the "Association Presque Rien - Friends of Luc Ferrari"; initiated and organized the biennial competition PRESQUE RIEN Prize by providing artists with original sound material from Luc's sound recordings; and edited a book of his writings and documents (*Musiques dans les spasmes*, published by les Presses du Réel, France) as well as one more book in English together with Catherine Marcangeli (*Luc Ferrari: Complete Works*, published by Ecstatic Peace library). I composed music; I continue.”
